

Johnson County Prosecutor's Office News Release

March 24, 2011

Over the weekend, on his own time and on his own personal computer, one of my deputy prosecutors sent an e-mail to Governor Walker of Wisconsin that contained a foolish suggestion. He originally denied sending the e-mail claiming that his hotmail account had been hacked into. Early this morning, the deputy contacted me from his home, admitted to me that he did send the e-mail to Governor Walker and tendered his resignation, which I have accepted.
