

My water matters!

Name and contact information

Ava Brice

How PFAS affects my family and my daily life it is hard

Because we need to grow
gardens with the water
and clean our toothbrushes
and take showers with it
my baby brother does not
know what to do

Because he is only
3 years old ~~and~~ and

we use the water
every day. it is so hard

to ~~keep~~ keep my baby brother

(over)

From doing things that
are Bad.
